

CHEMICAL PRODUCTS

Wastewater **CHEMICAL SERVICES**

Advanced Chemical Systems (ACS) offers a diverse line of chemical products for wastewater treatment. In addition to standard chemistries, ACS has the capability to blend products specific to the needs of a customer. We also offer toll blending services, which enable us to create and ship a distributor's product directly to the end user. Finally, ACS provides both the expertise and equipment to support all of our products.

Below is a condensed listing of the chemical offerings at ACS. Products are generally packaged in 55 gallon drums, 275/330 gallon totes, or bulk.

Commodity Chemicals

Buffer Solutions
Citric Acid
Muriatic Acid
Potassium Hydroxide
Sodium Hydroxide
Sodium Hypochlorite
Sodium Sulfite
Sulfuric Acid

Coagulants

Aluminum Chloride
Aluminum Chlorohydrate
Aluminum Sulfate
Calcium Chloride
Ferric Chloride
Ferrous Chloride
Sodium Aluminate

Specialty Chemicals

Polymers (Cationic and Anionic)
Metal Precipitants
Sludge Conditioners

9640 South 60th St.
Franklin, WI 53132
